Once we have helped you start your journey why not discuss our ongoing support solution FJG Employ with our employment team. They can provide a monthly service on the same retainer system.

But don't take our word for it, here's what some of our commercial clients say about our service:

"We have used FJG's services many times since we established our business, ranging from simple staff advice matters, to putting the business on a secure legal footing with professional partnership agreements, and critically first line legal representation in a complex, for us, property related Court case. Their advice has been first class every time, not always easy, legal matters are rarely easy, but understandable, correct and dare I say it, they have saved us money."

"We moved our business to FJG after many years of using a London firm, and we wish we had done it sooner. We have been delighted with this efficient, customer focused firm and the intelligent, highly professional people we have been dealing with."

"Katy has listened carefully to the brief and overcome some difficult legal issues for me, whilst maintaining a straight course and not alienating the other parties. This has underpinned my company's position in that area and made subsequent dealings easier. Great job done for us!"

Our offices are located in Billericay, Central London, Chelmsford, Colchester and Clacton.
